

ADVANTAGES

- Newly developed conical pocket design
- Diecast, stable and aerodynamically designed front frame
- Combined particulate and molecular contaminant filter
- Low initial pressure drop

Application	Particulate and molecular filter
Frame	Plastic
Gasket	Neoprene
Media	Glass fiber; Synthetic; Activated Carbon

Maximum operating temperature 122° F (50° C). 70% RH maximum for optimum adsorption.

Schedule air filters for change when initial pressure drop has doubled. Final pressure drop should not exceed 1.50" w.g.
